

AMREF HEALTH AFRICA ETHIOPIA

BACKGROUND

Amref Health Africa is the largest African-based and led international health development organization serving over 30 million people annually across 35 countries in sub-Saharan Africa. Strategically engaging with communities, governments, and local partners for the past 65 years, we work through our European and North American network of sister organizations on program implementation, advocacy, fundraising and partnership. Our subsidiaries include Amref Flying Doctors, Amref Enterprises Limited, and the Amref International University.

Our organization is driven by its vision to bring lasting health change in Africa and its mission to catalyze and drive community-led and people-centered health systems while addressing social determinants of health. Amref believes that the power to transform Africa's health lies within its communities, and therefore strives to ensure that health systems are functioning at an optimal level and communities are empowered to hold these systems accountable for the delivery of high-quality and affordable health care.

Amref has been active in Ethiopia since the 1960s and became fully operational as of 2002. We have been partnering with the Ethiopian government and local communities to co-create solutions and implement diverse

health and development project portfolios throughout the country for over twenty years. Aligning with the national Health Sector Transformation Plan II (HSTP II), we work to ensure health equity by serving women and children, reaching the most disadvantaged, inaccessible communities including pastoralist communities and placing an emphasis on youth development.

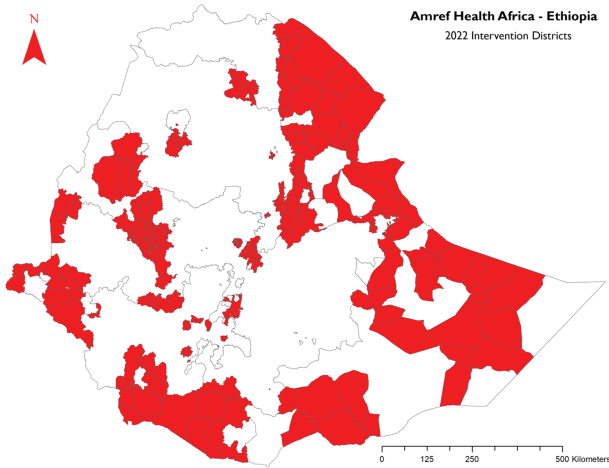

Our programs are designed to support community level interventions while strengthening health systems at the regional and national levels.

- **Reproductive, Maternal, Neonatal, Child, Adolescent & Youth Health and Nutrition**
- **Health Systems Strengthening**
- **Youth Development**
- **Water, Sanitation and Hygiene**
- **Disease Prevention and Control**

With an integrated and multi-sectoral approach, Amref strategically addresses cross-cutting issues through these programmatic focus areas.

OUR GEOGRAPHIC FOOTPRINTS

We implement projects in 12 regional states and two city administrations.

KEY ACHIEVEMENTS 2022

We expand our footprint by increasing the reach and depth of our program interventions each year.
