

Ten Points on Amref Health Africa - Ethiopia

1

Amref Health Africa largest African based and led international health development organization in Ethiopia driven by its mission to **catalyze and drive community led and people centered health systems** delivering high impact health solutions in Ethiopia.

2

We implement projects in all 12 regional states and two city administrations across Ethiopia.

3

Our 2022 Key Achievements include 12.3M beneficiaries reached, 519 hospitals and health centers supported, 30 620 health workers trained and a total of 504 districts reached.

4

We are **community centered**-responding to the needs of the community. Communities are our primary clients as we work closely with them: we listen, consult and engage in bringing lasting health changes in the community. We are closest to the community, enabling us for better response to the community.

5

We **align with national priorities of the Government of Ethiopia** across all sectors: health, education, water, employment and skills. **Our programs focus areas include** Reproductive, Maternal, Neonatal, Child, Adolescent and Youth Health, Health Systems Strengthening, Youth Development innovatively integrating Water, Sanitation, Hygiene, and Disease Prevention and Control.

6

We are recognized as a leader **in developing regions and pastoralist communities**: reaching marginalized communities, operating in places where only a few dares to go. We are the ambassador of **equity** for those living in the remotest areas of the country as we are intentional about reaching those communities to make sure everyone has access to healthcare.

7

Gender Equity - we advocate and build capacity of women in decision making, provide economic empowerment, leadership and implement programs against gender-based violence.

8

Meaningful Youth Engagement - moving forward with innovative integrated programming targeting young people – health, education, advocacy and economic development by connecting young people with the private sector for employment or entrepreneurship.

9

We believe local Civil Society Organizations (CSOs) should be empowered to engage in health and development agenda as they are closer to the community. We focus on partnering with CSOs, building their capabilities in program implementation and operations.

10

What do we aspire to? Amref @ 30- integrated youth services harnessing demographic dividends, strengthening primary health care, and engaging in social enterprise. We thank our donors - bilateral, foundations and private sector – that have trusted us over the years. We operate in the spirit of **Ubuntu**— ‘I am... because you are.’
