Report of the Directors For the year ended 30 September 2003

The directors have pleasure in submitting their report together with the audited financial statements for the year ended 30 September 2003, which disclose the state of affairs of the company.

1. *Objectives of the Foundation*

The African Medical and Research Foundation's (the Foundation) mission is to improve the health of the disadvantaged in Africa as a means for them to escape poverty and improve the quality of their life.

This mission is to be achieved by developing, testing and promoting the adoption of appropriate models for improving health; contributing to capacity development at all levels and contributing to the development of an enabling environment for health improvement.

AMREF works with communities to implement projects, learns from its activities and uses its knowledge to influence others.

2. *Principal activities*

The principal activities of the Foundation to achieve the above stated objectives include improving community health, capacity building through training and outreach, and advocating for changes to improve the health and well-being of poor people in Africa.

3. *Incorporation*

The company is incorporated in Kenya as a company limited by guarantee under the Companies Act and is domiciled in Kenya.

4. *Results*

The results for the year are set out on page 6.

5. *Directors*

The directors who served since 1 October 2002 are set out on page 1.

6. *Auditors*

The auditors, KPMG Kenya, have indicated their willingness to continue in office in accordance with Section 159(2) of the Companies Act (Cap 486).

7. *Approval of financial statements*

The financial statements were approved at a meeting of the Directors held on 4 March 2004.

BY ORDER OF THE BOARD

Dr. Michael Smalley, Director General

Date: 4 March 2004

Statement of Directors' Responsibilities

The Kenyan Companies Act requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company as at the end of each financial year and of the operating results of the company for that year. It also requires the directors to ensure the company keeps proper accounting records, which disclose with reasonable accuracy the financial position of the company. They are also responsible for safeguarding the assets of the company.

The directors accept responsibility for the financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates, in conformity with International Financial Reporting Standards and in the manner required by the Kenyan Companies Act. The directors are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the company and of its operating results.

The directors further accept responsibility for the maintenance of accounting records which may be relied upon in the preparation of financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the directors to indicate that the company will not remain a going concern for at least the next twelve months from the date of this statement.

Prof. Miriam Were,
Chairman Board of Directors

Dr. Michael Smalley,
Director General

Date: 4 March 2004

Report of the Independent Auditors to the members of African Medical and Research Foundation

We have audited the financial statements set out on pages 6 to 16 for the year ended 30 September 2003. We have obtained all the information and explanations that to the best of our knowledge and belief were necessary for the purposes of our audit and to provide a reasonable basis for our audit. The financial statements are in agreement with the books of account.

Respective responsibilities of directors and independent auditors

As stated on page 4, the directors are responsible for the preparation of financial statements that give a true and fair view of the state of affairs of the company and of its operating results. Our responsibility is to express an opinion on the financial statements based on our audit.

Basis of opinion

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we plan and perform our audit to obtain reasonable assurance as to whether the financial statements are free of material misstatement. An audit includes an examination, on a test basis, of evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the directors, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Opinion

In our opinion, proper books of account have been kept, and the financial statements give a true and fair view of the state of the company's financial position at 30 September 2003 and of its operating results and cash flows for the year then ended and comply with International Financial Reporting Standards and the Kenyan Companies Act.

Notes to the Financial Statements For the year ended 30 september 2003

1 SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below:

(a) Basis of preparation

The financial statements are prepared in accordance with and comply with International Financial Reporting Standards promulgated by the International Accounting Standards Board. The financial statements are prepared under the historical cost convention.

(b) Income recognition

- i) Grant income is recognized when expenditure is incurred;
- ii) Trust fund income is recognized on a receipts basis;
- iii) Air Ambulance recoveries are recognized in the year in which the service is provided;
- iv) Donations in kind are recognised in the financial statements at the amount attributed to them by the donor, or in the absence of this, at their estimated present market value.

(c) Foreign Currency

Transactions in foreign currencies are converted to US dollars using the exchange rate ruling at the date of the transaction. Foreign currency monetary assets and liabilities are translated to US dollars using the exchange rates ruling at the balance sheet date. Resulting exchange gains and losses are recognized in the income and expenditure statement. Non-monetary assets and liabilities denominated in foreign currency are recorded at the exchange rate ruling at the date of the transaction.

(d) Recognition and measurement of financial instruments

(i) Classification

A financial instrument is a contract that gives rise to both a financial asset of one enterprise and a financial liability of another enterprise.

The financial instruments of the company mainly comprise:

Originated loans and receivables - These are loans and receivables created by the company for providing money to a debtor. These include debtors, short-term deposits and grants receivable.

Financial liabilities - The Company has non-trading financial liabilities, which consist mainly of trade creditors and unexpended grants.

(ii) Recognition

Originated loans and receivables and financial liabilities are recognized on the day they are transferred to the company.

(iii) Measurement

Financial instruments are measured initially at cost, including transaction costs.

Subsequent to initial recognition, all non-trading financial liabilities and originated loans and receivables are measured at amortized cost less impairment losses. Amortized cost is calculated using the effective interest rate method. Premiums and discounts, including initial transaction costs, are included in the carrying amount of the related instrument and amortized based on the effective interest rate of the instrument.

(iv) Derecognition

A financial asset is derecognized when the company loses control over the contractual rights that comprise that asset. This occurs when the rights are realized, expire or are surrendered. A financial liability is derecognized when it is extinguished.

(c) Property, plant and equipment

Assets donated to the Foundation are included in the accounts at the amount attributed to them by the donor. Property, plant and equipment purchased for donor-funded health programmes are expensed in the year of purchase. All other property, plant and equipment are initially recorded at cost.

Depreciation is calculated on the straight line basis to write down the cost of each asset, to its residual value over its estimated useful life as follows:

Buildings	5%
Aircraft	5%
Motor vehicles, medical, surgical and radio equipment	25%
Furniture, fittings and general equipment	12.5%

(f) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost is determined using the weighted average method. Provision is made for obsolete and defective stocks.

(g) Debtors and prepayments

Debtors and prepayments are stated at nominal value less write-down for any amounts expected to be irrecoverable.

(h) Retirement benefit obligations

The company operates a defined contribution retirement benefit scheme for all its local employees. In respect of employees on international contract, the company contributes to individual retirement benefit schemes chosen by the staff concerned.

The company's contributions of 14% of basic pay to the defined contribution scheme and the individual retirement benefit schemes are charged to the Income Statement in the year to which they relate.

(i) **Capital Reserve**

The Capital Reserve has been created to reflect the amounts donated for and monies spent on property and equipment. The Reserve is adjusted through the general reserve to reflect movements in property, plant and equipment for acquisition, depreciation and disposals such that the capital reserve is equivalent to the net book amount of the property, plant and equipment it represents.

(j) **Aircraft Replacement Fund**

The aircraft replacement fund was created with the aim of investing at least the amount equivalent to the depreciation charged on the caravan aircraft each year to enable the company to replace the aircraft over a period in case grant funds or other funds cannot be raised for the same. This will also include any other funds specifically received for future replacement of aircraft.

(k) **Aircraft Maintenance Reserve**

The aircraft maintenance reserve was created to cover the estimated cost of the next major overhaul of aircraft on the basis of hours flown.

(l) **Health Learning Materials Fund**

The Health Learning Materials (HLM) Fund is a deposit of proceeds in Kenya Shillings from the sale of certain printing equipment, the income of which has been set aside for production of health learning materials.

(m) **Operating leases**

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are recognized in the income statement on a straight-line basis over the term of the lease.

(n) **Impairment**

The carrying value of assets is reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amount is estimated and an impairment loss recognized in the income and expenditure account if the carrying amount exceeds its recoverable amount.

(o) **Cash and Cash Equivalent**

Cash and cash equivalent comprises bank balances, bank deposits and cash. Bank overdrafts are payable on demand and form an integral part of the cash management and are included as a component of cash and cash equivalent for the purposes of the statement of cash flow, where applicable.
